

A distributor for press boxes in Japan.

AudioPressBox is a Slovak manufacturer of professional press conference audio distribution amplifiers also known as press box or multibox.

<https://www.audiopressbox.com/pages/company>

Press box is a device that serves for distribution of audio signal on a press conference.

In reality it means that : There is only 1 professional microphone in front of the speaker either on a table or on a lectern, and the branded TV, RADIO, Newspaper microphones are not placed in front of the speaker. Instead the journalists connect their CAMERA, VOICE RECORDER, SMARTPHONE into our device that will provide them with the audio feed from the professional microphone. This is a world standard for professional press conferences.

Our products you can find on this web page: <https://www.audiopressbox.com/collections/all>

Our devices are used by a lot of organizations and institutions around the world, including : EU parliament, EU Commission, NATO HQ, Olympic Games, G7 summits, ASEAN summits, Presidents, Prime ministers, Sports stadiums and many more.

We have been in business for more than 9 years and we currently have partners in more than 55+ countries around the world.

Now we are looking for a Distributor or system integrator of Audiovisual technologies (AV technologies) to cooperate with us, directly in Japan.

They should have experience in the AV field and should be working on governmental projects as well.

In a case of an interest, please, contact us: samuhel@audiopressbox.com
