Table of contents

1. Legal basis
2. Export – What to start with?
3. Proof of preferential origin
4. EU/Japan EPA ↔ Other FTA's
Main differences
5. Import duties in Japan / Schedule / Rules of Origin
6. The import document (codes box 44)
7. Supplier's declarations with origin criteria
8. Additional information

1. Legal basis

1. Legal basis

COUNCIL DECISION (EU) 2018/1907

of 20 December 2018

on the conclusion of the Agreement between the European Union and Japan for an Economic Partnership

- Publication → OJ - L330 (27/12/2018)
- Origin → Chapter 3 (pages 21 till 32)
→ Annexes 3-A till 3-D (pages 634 – 686)

2. Export

What to start with?

2. Export – What to start with?

- Obtain status of « Registered Exporter » (REX)
- REX = Self-certification
- Application form for registration
- Belgian REX numbers: BE+REX+EORI
(BEREXBE0123456789)
- Registration valid for all existing and future FTA's
- No transition period for use of approved exporter's number
- REX number not compulsory < 6000 €

2. Export – What to start with?

Application
form

1. Exporter's name, full address and country, EORI or TIN (2).

1 EORI number = 1 Registration

2. Contact details including telephone and fax number as well as e-mail address where available.

3. Specify whether the main activity is producing or trading.

Both can be selected

2. Export – What to start with?

4. Indicative description of goods which qualify for preferential treatment, including indicative list of Harmonised System headings (or chapters where goods traded fall within more than twenty Harmonised System headings).

Description + Headings (4 digits)

5. Undertakings to be given by an exporter

- Information given is correct
- Cooperation with authorities
- Keep accounting records for at least 3 years
- Accept control by authorities
- Inform authorities in case of change
- ...

2. Export – What to start with?

6. Prior specific and informed consent of exporter to the publication of his data on the public website

The undersigned is hereby informed that the information supplied in this declaration may be disclosed to the public via the public website. The undersigned accepts the publication of this information via the public website. The undersigned may withdraw his consent to the publication of this information via the public website by sending a request to the competent authorities responsible for the registration.

Consent is NOT compulsory

2. Export – What to start with?

TAXATION AND CUSTOMS UNION

European Commission > Taxation and Customs Union > Databases > REX > REX number validation

Mail Box | Search

From the 1st of January 2017, the data of the REX system is published and may be searched online.
For more information about the registration of Registered Exporter, click [here](#).

Help | What's new? | Information | FAQ

REX number validation

Retrieve REX number validation

You can launch a validation request by entering the REX or EORI/TIN number and clicking the corresponding "Validate" button.

Search on REX number

Search on **number**

2. Export – What to start with?

Retrieve REX number validation

You can launch a validation request by entering the REX or EORI/TIN number and clicking the corresponding "Validate" button.

Search on REX number

Search on number

1 result(s) match(es) your search

REX number	EORI / TIN number	Status
+ BEREXBE0456453195	BE0456453195	The REX number is valid

When you have given your consent

3. Proof of preferential origin

3. Proof of preferential origin

Since the day of entry into force (01/02/2019)

- Preferential treatment for goods if origin statement made out as from 01/02/2019
- Preferential treatment for goods in transit or in customs warehouse
 - Declared before 31/01/2020
 - With origin statement issued as from 01/02/2019
- Origin statement = valid 12 months from date it is made out

3. Proof of preferential origin

Origin statement in EU

(Period: from to (1))

Max 12 months

Identical products
Same subheading
Same origin rule

The exporter of the products covered by this document (Exporter Reference No. (2)) declares that, except where otherwise clearly indicated, these products are of (3) preferential origin.

REX number

(Origin criteria used (4))

See next slide

.....

(Place and date (5))

May be omitted

.....

(Printed name of the exporter)

Exemption of signature

.....

3. Proof of preferential origin

Origin criteria used

A – Wholly obtained or produced products

B – Products produced exclusively from originating materials

C – Products produced using non-originating materials, with the specific requirements for the product:

1 – Change in tariff classification rule

2 – A value rule

3 – A specific process rule

4 – Specifics rules related to vehicles and parts of vehicles

D – Use of accumulation

E – Use of tolerances

Example: C1E (Non-originating materials, CTH and tolerance)

3. Proof of preferential origin

Origin criteria

- Absence of origin criterion → Denial of preference
- Invoice with different headings → Criterion for every heading
If link Heading ↔ Criterion unclear → Denial of preference
- Sets → No origin criterion foreseen (till now)
- If possibility of several criteria

28.01-28.53

CTSH;

A chemical reaction, purification, production of standard materials, or isomer separation is undergone;

MaxNOM 50 % (EXW); or

RVC 55 % (FOB).

- Mention of the real applied criterion
If all criteria are fulfilled → Choice for the exporter

3. Proof of preferential origin

Origin criteria – Additional information asked by Japan

Article 3.16, §3

... The customs authority of the importing Party may request, to the extent that the importer can provide such explanation, the importer to provide an explanation, as part of the customs import declaration or accompanying it, that the product satisfies the requirements of this Chapter.

Clarification by Japanese Customs and EU Commission

The exporter in the EU who made out a statement on origin, when requested by the importer in Japan to provide an explanation, is not obliged to provide such explanation. And this will not lead to a denial of the preference in Japan.

4. EU/Japan EPA ↔ Other FTA's Main differences

4. EU/Japan EPA ↔ Other FTA's Main differences

“Alternative” proof of origin

Second possibility of proof of origin =
Importer's knowledge

Why “Alternative”?

- The importer claims preferential origin treatment
- No use of origin statement
- No need to be registered
- All information on origin in possession of importer

Relation Exporter / Importer → Same company?
Importer and Exporter → access to the same data

4. EU/Japan EPA ↔ Other FTA's Main differences

Retrospective statement

Not foreseen explicitly !!!

Article 3.16

- Preferential origin treatment claimed by the importer at the moment of importation.
- The origin statement has to be issued before the claim for preferential treatment is made.

Nevertheless ...

4. EU/Japan EPA ↔ Other FTA's Main differences

Retrospective statement

... Nevertheless

Solution in the EU → Art 56, §3 of UCC

→→ Preferential origin treatment may be granted retrospectively

But in Japan no real solution... till now...

4. EU/Japan EPA ↔ Other FTA's Main differences

Authorization number in Japan

EU → REX number

Japan → Japan Corporate Number

- Japan Corporate Number = 13-digit single-byte number (e.g. 1234567890123)
- Check possible in online-database
<http://www.houjin-bangou.nta.go.jp/en/>

4. EU/Japan EPA ↔ Other FTA's Main differences

Statement on separate document

Statement can be issued:

- On the invoice itself
- On any other commercial document

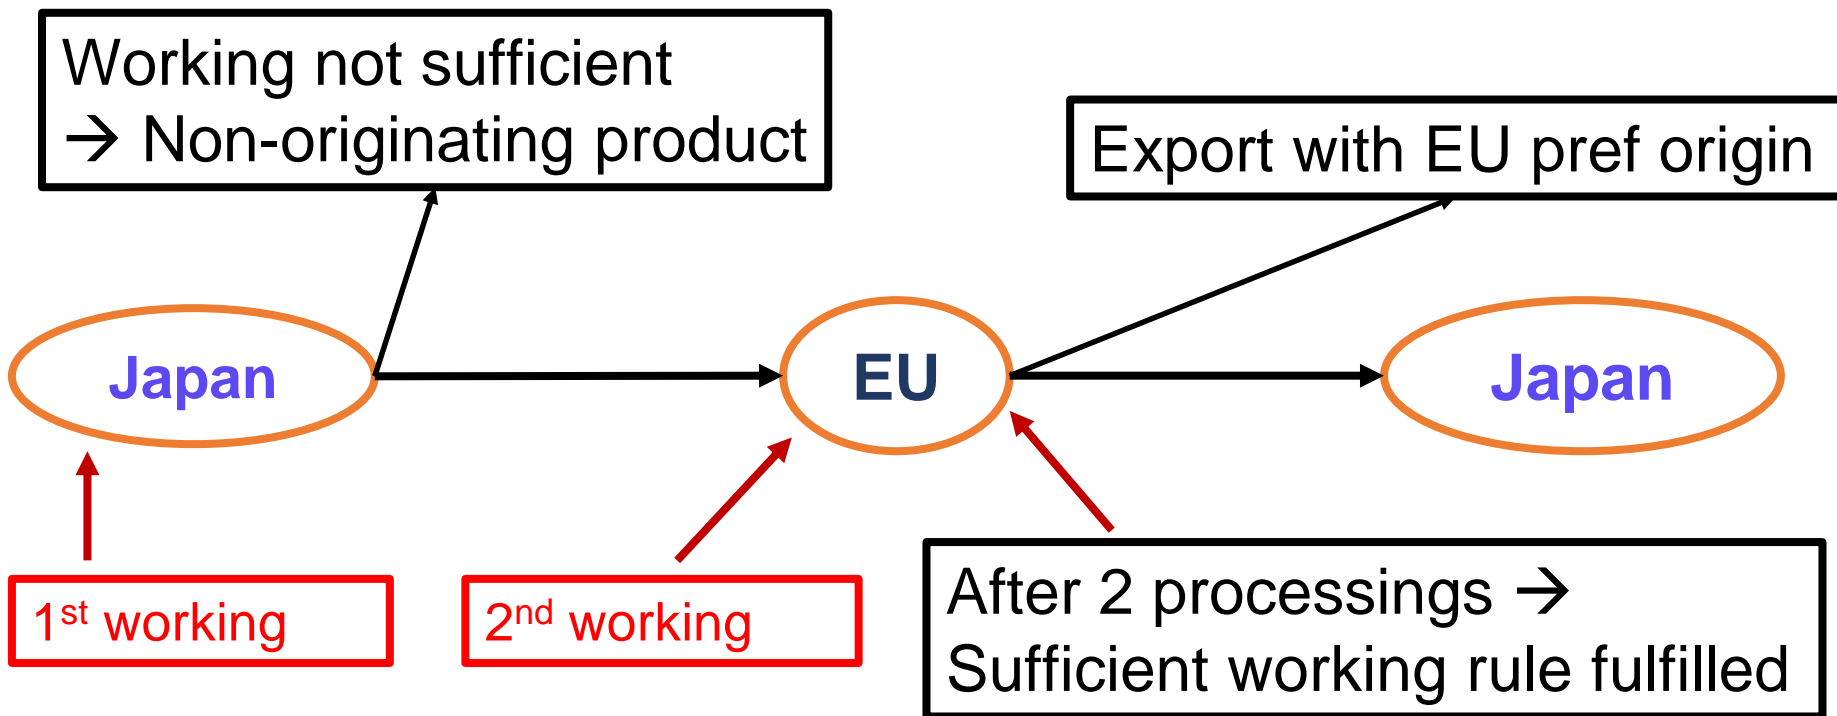

Statement can be provided on separate document

↳ [Invoice or other commercial document
must refer to that separate document

4. EU/Japan EPA ↔ Other FTA's Main differences

Full cumulation (besides bilateral cumulation)

Parties are allowed to use, from each other, non-originating materials

4. EU/Japan EPA ↔ Other FTA's Main differences

Drawback prohibition not foreseen

4. EU/Japan EPA ↔ Other FTA's

Main differences

Sufficient working rules - Layout

Traditional FTA's

HS heading	Description of product	Working or processing, carried out on non-originating materials, which confers originating status	
(1)	(2)	(3)	or (4)
ex Chapter 88	Aircraft, spacecraft, and parts thereof, except for:	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex8804	Rotochutes	Manufacture from materials of any heading, including other materials of heading 8804	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
8805	Aircraft launching gear, deck-arrestor or similar gear; ground flying trainers; parts of the foregoing articles	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product

4. EU/Japan EPA ↔ Other FTA's Main differences

Sufficient working rules - Layout

Japan

Column 1 Harmonized System classification (2017) including specific description	Column 2 Product specific rule of origin
Chapter 88	Aircraft, spacecraft, and parts thereof
88.01-88.05	CTH; Change in Tariff Heading MaxNOM 50 % (EXW); or RVC 55 % (FOB).

**Maximum value non-
originating materials**

**Minimum regional
value content**

4. EU/Japan EPA ↔ Other FTA's Main differences

Sufficient working rules - Example 1905 32 (Waffles)

Traditional FTA's

Manufacture from materials of any heading, except those of Chapter 11 (wheat flour)

- For wheat flour → supplier's declaration(s) proving EU origin
- For other ingredients → Heading different from 1905

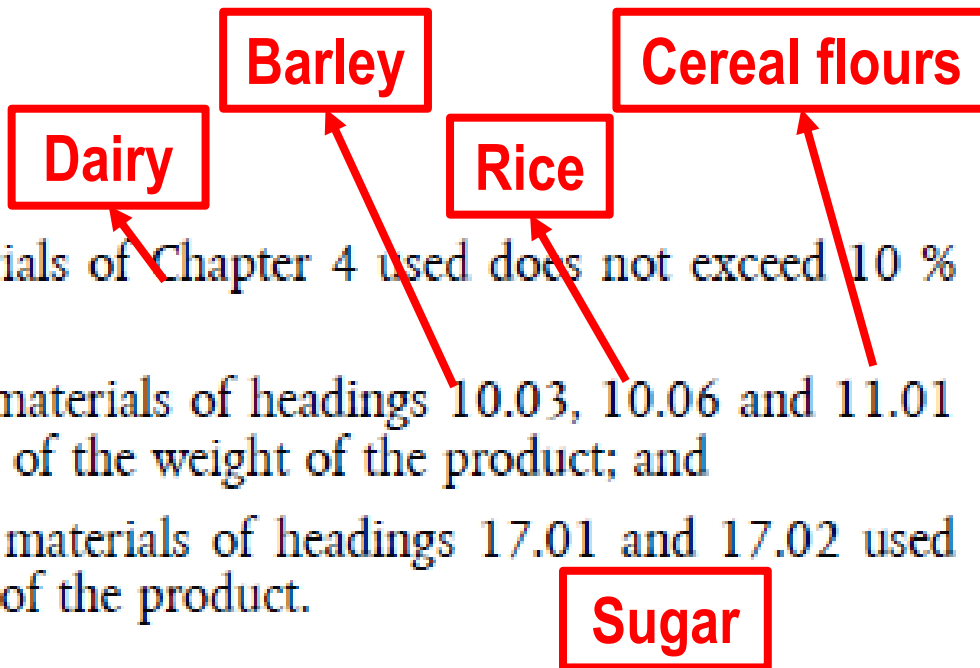

4. EU/Japan EPA ↔ Other FTA's Main differences

Sufficient working rules - Example 1905 32 (Waffles)

Japan

CTH, provided that:

- the weight of non-originating materials of Chapter 4 used does not exceed 10 % of the weight of the product;
- the total weight of non-originating materials of headings 10.03, 10.06 and 11.01 to 11.08 used does not exceed 10 % of the weight of the product; and
- the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 30 % of the weight of the product.

Main rule = Change in Tariff heading (CTH), BUT ...

4. EU/Japan EPA ↔ Other FTA's Main differences

Sufficient working rules - Example 1905 32 (Waffles)

Japan

Main rule = Change of Tariff heading, BUT ...
Limited use of different non-originating ingredients

NOT IN VALUE,
BUT IN WEIGHT

Supplier's declaration(s)
proving EU origin for all
these ingredients

4. EU/Japan EPA ↔ Other FTA's

Main differences

Sufficient working rules - Example 2 – Chapter 84)

Traditional FTA's

ex Chapter 84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof, except for:	<p>Manufacture:</p> <ul style="list-style-type: none"> — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 40 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex8401	Nuclear fuel elements	Manufacture from materials of any heading, except that of the product ⁽¹²⁾	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8402	Steam or other vapour generating boilers (other than central heating hot water boilers capable also of producing low pressure steam); super-heated water boilers	<p>Manufacture:</p> <ul style="list-style-type: none"> — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 40 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product

4. EU/Japan EPA ↔ Other FTA's Main differences

Sufficient working rules - Example 2 – Chapter 84)

Japan

Chapter 84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
84.01-84.06	CTH; MaxNOM 50 % (EXW); or RVC 55 % (FOB).
84.07-84.08 (1)	MaxNOM 50 % (EXW); or RVC 55 % (FOB).
84.09-84.24	CTH; MaxNOM 50 % (EXW); or RVC 55 % (FOB).
84.25-84.30	CTH except from heading 84.31; MaxNOM 50 % (EXW); or RVC 55 % (FOB).
